PROFILE SUMMARY

Full Stack Developer with expertise in React.js, Next.js, Node.js, MongoDB, and TypeScript. Experienced in building functional, user-friendly web applications using clean, efficient code. Seeking internship or entry-level software engineer position to develop secure, scalable applications and contribute to collaborative development teams. Passionate about problem-solving and committed to delivering high-quality software solutions.

EXPERIENCE

Web Developer Intern | Razorpod — On-site Gurugram 1 July – 30 Sep 2025

- Improved website performance by 30% through optimized components, caching, and code refactoring.
- Built responsive UIs in Next.js using **SSR, SSG**, and **ISR** for faster load times and better SEO.
- Integrated REST APIs and Strapi CMS for dynamic content management and scalability.
- Learned **Agile**, **DevOps**, and **CI/CD** practices while contributing to end-to-end feature delivery.

MERN Stack Developer Intern | GRID R&D — Remote June 2025 – Sep 2025

- Developed and optimized **responsive** webpages using React.js, Node.js, Express, and PostgreSQL,
- Built and integrated an invite feature that enabled users to send and manage invitations, boosting user engagement by 25%.
- Diagnosed and resolved **20+** frontend and backend issues, reducing bug reports and enhancing application reliability.

PROJECTS

SecureKeep | Code | Demo

Tools: Next.js, Node.js, TypeScript, JWT, MongoDB, Tailwind CSS, Nodemailer

- Developed full-stack web application for secure credential management with AES-256 encryption.
- Implemented JWT authentication with HTTP-only cookies and client-side decryption on demand.
- Built responsive UI with search functionality and CSV export capabilities.

Storely – Cloud Storage | Code | Demo

Tools: Next.js, Appwrite, Tailwind CSS

- Built a Google Drive-like cloud storage platform with OTP-based authentication.
- Supports file upload and sharing across images, videos, audio, and document formats.

EDUCATION

Guru Gobind Singh Indraprastha University — 2022 – 2026
Bachelor of Technology in Information Technology — CGPA: 9.1/10 (6 Semesters)

Technical Skills

- **Languages**: JavaScript, TypeScript, Python, Java
- **Web**: HTML, CSS, Tailwind CSS, React.js, Next.js, Node.js
- **Database**: MongoDB, MySQL, PostgreSQL
- **Tools/Platforms**: Git/GitHub, Docker, CI/CD, Agile, Prisma, Figma, Strapi
- **Others**: Redux, REST APIs, Express.js, JWT, Cloudinary, Web vitals

CERTIFICATIONS

- SQL & Relational Databases – Cognitive Class
- Machine Learning with Python – Cognitive Class
- Social Summer of Code – United Latino Students Association

SOFT SKILLS

- Problem-solving & Analytical Thinking, Team Collaboration & Communication, Time Management, Attention to Detail
